- Students must complete both math classes and two of the four science classes with a B average and no grade less than a C as a requirement for admission. All other coursework should be completed with a grade of C or better.
  - Students may have to complete College Algebra (MATH 1314) at their institution before taking MATH 1324 or 1325.
  - College Algebra is a transferable course but **will not** satisfy the Mathematics requirements in this degree plan.
- + BIOL 111 (BIOL 1406) may substitute for BIOL 107, but this would require the student to complete BIOL 112 (BIOL 1407) as well.  
 ^ BIOL 2401 and 2402 are not direct equivalents for BIOL 319 and 320 but may be used for these degrees.

The recommendations below represent what a typical TAMU student's schedule looks like during the first four semesters. If working to complete an Associate's Degree before transferring, please align your degree plan to satisfy TAMU degree requirements.
